

# Regional Collaborative Platform in Europe and Central Asia

## Work Plan January 2025 – December 2025

### A. Strategic vision statement

*The Regional Collaborative Platform in Europe and Central Asia fosters regional cooperation among the entities of the regional UN Development System responding to development challenges in the region. It joins regional capacities and uses synergies to respond to regional and country needs with transformative system-wide technical support, advocacy and policy solutions, for achieving the shared goals. Our particular regional added value is bringing together our regional assets and expertise to provide the best support to countries, to scale up common solutions and to mobilize global, regional, and national actors to address common issues in support of accelerated action for the achievement of the 2030 Agenda for Sustainable Development.*
